had also been queried on this. Dr. Reichardt was doubtful as to whether	4. NSA, called to say that he had contacted BOB concerning the passage of the Brooks' bill and was assured that NSA had nothing to worry about and that BOB intended to go slow in implementing the provisions of the bill by concentrating on those aspects they had highlighted in their report to the President. It was agreed that we would keep each other informed on any major developments in this area. 5. Talked with Dr. Charles Reichardt, of the Atomic Energy Commission, regarding the confidential inquiry we had received from George Murphy, Joint Committee on Atomic Energy staff, with regard to I advised Reichardt that we wished to coordinate our response as we were under the impression that the Commi had also been queried on this. Dr. Reichardt was doubtful as to whether I could determine precisely what was said to Murphy but said he would look into it further.	Monday - 8 November 1965 4.
